

Numbering

A title slide is `numbered: false`,
so it carries no number and the counter passes it by.

A slide that animates

This is the first subslide, and the footer says so.

A slide that animates

This is the first subslide, and the footer says so.

The number beside the slide number counts these.

A slide that animates

This is the first subslide, and the footer says so.

The number beside the slide number counts these.

Ask about “slide 1 (sub 3 of 3)” and the speaker can find it.

A static slide

Due to lack of subslides, the footer writes the slide number alone.

The bar spans the talk

Every state of every slide is one step of the whole deck.

So the bar moves by the same amount on a slide that animates as on one that does not.

The bar spans the talk

The bar underneath counts clicks, not slides.

So the bar moves by the same amount on a slide that animates as on one that does not.
